

SANDIEGO ART + SOL

About this Site

This site is presented in part by the strong, ongoing collaboration and partnership between numerous organizations. This work in progress could not have been completed without the vision and commitment of the City of San Diego Commission for arts and Culture and the San Diego Convention & Visitors Bureau and all the arts, culture and tourism organizations they represent.

This site is part of a multi-level marketing and promotions campaign designed to raise the awareness of San Diego as a world-class international cultural destination.

From this database, we provide calendar listings to numerous groups, both locally and internationally, as a way of informing our visitors and locals about all the arts and culture opportunities available to them.

To help increase the visibility of the entire arts and culture community, you are encouraged to link www.sandiegoartandsol.com to your site as well!
